Spring Clean Up Day 2023

Our 2023 Spring Clean Up Day was a huge success! We were able to help our residents clear out 6 dumpsters full of debris from their homes and garages and ended the day with great food, music, and friendship. We have so many people to thank and will do our best. If we somehow missed your name, please know how grateful we are for your service, big or small, to make this day possible!!

“I met lots of very nice, grateful people who were very happy to have the opportunity to get rid of stuff. Greg Ritchie, District 2 Councilman, arrived with his two children and started pitching in to unload cars into the dumpster. The party was great fun with excellent hot dogs and music. It was a great day for Leisure Town and I hope we do more social events that take advantage of the common space and amenities in the way they were intended to be used. Thank you to the Board of Directors for planning this event.”

Food & Fun

Those attending were very understanding, followed directions, etc. The positively great day was due to their willingness and follow thru with provided directions. They enthusiastically participated knowing this was a free event. Smiles were everywhere 😊

“I enjoyed helping out that day. It was nice to meet new faces, everyone was very personable and helpful. Thanks to the Councilman Ritchie for donating the dumpsters and actually getting in there to help off load items.”
